

RSSi Achieves ISO 20000-1:2011 Certification

Sterling, VA – January 9th, 2015 – Right Sized Solutions, Inc. (RSSi), a quality provider of high-end Technical and Management solutions to the Federal Government, announced the award of ISO 2000-1:2011 Certification.

RSSi successfully completed its International Standards Organization (ISO) 20000:2011 standard Certification, a customer-focused international standard that contains the IT Infrastructure Library (ITIL) best practices for information technology (IT) service management. At RSSi our implementation of the ISO 20000 Standard, which is an integrated process approach to deliver managed service in order to meet requirements, is fully integrated into our business practices under ISO 9001:2008, to ensure that our customers have a seamless support solution. Our formal assessment was conducted by QAS International. The ISO 20000 certification confirms that RSSi IT management practices and processes are tightly controlled and applied consistently. This award provides RSSi customers validation of high quality IT professional services.

“We are extremely proud of the quality of the IT services we provide to our current customers, but the practices that have been validated through this independent third party certification will help us in our commitment to continuous improvement. As a growing Woman-owned business focused on providing exceptional services to the Government and to corporate customers, we are honored to receive this award and will continue our commitment to provide the best possible services in support of our clients’ mission.”, said Sun Tok Barrass, President and CEO of RSSi.

About Right Sized Solutions, Inc.

RSSi is a Woman-owned small business focused on IT, SETA and Integrated Business Management services for Government and private organizations. RSSi provides the U.S. government with mission-critical solutions by enabling our employees and Team members to serve as an engine to support our customers’ missions.
